

## Flexotherm™ 6'x6' Utility Pole Heated Blanket

Flexotherm™ Heated / Insulating Blankets offer a continuous and even heat source for any type of job.

**Flexotherm™** manufactures custom designed, high quality blankets for a multitude of applications and industries.

Our blankets offer an even and continuous heat source for most type job requirements.

Our Flexible Heating Blankets are made with the following features:

- ◆ Outfitted with a GFCI for extra security for both the product and user.
- ◆ The high efficiency carbon heating grid evenly distributes heat over the entire blanket area.
- ◆ The heating element is built with a integrated fixed temperature thermostat as a an added safety feature.
- ◆ Our heating elements, unlike others, decreases current as temperature increases which results in a safer product.

Can be used on many different types of materials

Blanket design keeps the cold air out and the warm air in.

### Construction:

- ◆ All models utilize Heavy Duty vinyl that is NFPA Certified Flame Retardant.
- ◆ The Heavy Duty vinyl used is also scuff, water, and UV resistant.
- ◆ Vinyl Panel Perimeters are sealed with Fully Welded Seam
- ◆ Every blanket includes a Full-Wrap of high thermal efficiency Closed Cell Foil Faced Insulation, directing the infrared heat to the product being heated.

<u>Model</u>	<u>Approx. Temp</u>	<u>Blanket Dimensions</u>	<u>Wattage</u>	<u>Amps</u>	<u>Volts</u>
158°F (70°C) Temperature Model	149°F—167°F (650°C — 75°C)	72" x 72" (182.9cm x 182.9cm)	1175watts	9.7amps	120V

### Warranty

All of our quality heated products are backed by a limited Two-Year Warranty:

- ◆ Full coverage on repairs caused by defects in workmanship
- ◆ Repaired on-site whenever possible to minimize downtime.

### About Us

Flexotherm™ is a division of Neptech, Inc.; a manufacturer of quality heated products since 1994. Our mission is to partner with industry leading companies to harness technologies that help reduce emissions and meet corporate, government and EPA standards.

We have built a quality reputation for consistently delivering innovative and cost-effective solutions that benefit the bottom line.

Our multi-faceted engineering, design and manufacturing capabilities enable us to provide a complete array of products and services to R&D facilities and OEMs worldwide.
